

For Democracy and Capitalism to flourish, it needs a free marketplace of ideas. A marketplace is certainly not free and is not even a marketplace if there exists only one or two ideas!! I cannot imagine a world where radio and television in all markets is controlled by News Corp.(Fox), Viacom, and/or Clear Channel. This action will open the floodgates of abuse. If this passes, we will seriously start turning into the government in the novel "1984."

On June 2nd, I urge you to retain the current ownership rules. Preserve the marketplace of ideas!
